Decision on the production of SOBA 1985 Transition Class T-Shirts

Good day gents

Following the willingness to have a class T-Shirt, this class went through a rigorous process in order to make sure that we come out with a decision which is the will of most members of the class. This process ended with voting on the color and form of subsidy for the T-Shirt. The result of this vote can be found via the following link <https://de.surveymonkey.com/results/SM-MTJ7XVHRV/>.

After extension of the voting deadline to allow maximum participation, no new vote was registered so that we had a tie of options 8 and 9. More than half of the class wanted the T-Shirts subsidized, with 50% and 100% having the same tally. On the basis of these results, the executive board chose color number 9. The results also showed that a reasonable number of members also wanted no subsidy or just subsidy of the transportation costs. On the basis of these results, the 50% subsidy was confirmed by the board. We can therefore make the following decisions:

1. Eph Charles shall be given the task of buying, printing and shipping the T-Shirts.
2. By the 15th of March, we shall, on the basis of the count of registered members, transfer the appropriate amount to Charles to begin the production and delivery. The choice of this deadline is such as to allow all who have not registered to do so. We would like all to get the T-Shirts.
3. The T-Shirts shall be shipped to single locations in the various regions (Asia, Africa, Europe, and America). Regional leaders should get in touch with Charles to provide the addresses.
4. Members should send their sizes to Charles directly.
5. If anyone requires direct shipment, it shall be done at own cost and directly through Charles.
6. From now on, Eph shall be the go to person. The executive board stands by to support him.

The Executive Board

Signed

Clement Nkamanyi (President)

Executive Board SOBA Transition 85 Class

(Clement Nkamanyi, Eyong Christian ,Che Ivo, Mbome Fritz, Agbor Renzo Arrey)

Chosen color is 9
